

EARTHQUAKE QUESTIONNAIRE

Your assistance is required in providing information about the extent of shaking and damage for recent earthquakes that occurred in Southern Africa (only) by filling out the questionnaire below. Even if you did not feel the earthquake, but were in the general region of the epicenter, we would appreciate your feedback. (We would like to know the areas over which the earthquake was felt and not felt).

In the future, for other earthquakes that occur in your area, please do the same. Your input will be used to make maps of shaking intensity distribution.
